The proceeds ceived from their sale will to help finance Vepco's ion construction program estimated $50 million.

directors declared a quarter- of 43 cents per share mmon stock.

arterly dividends declared in the four series of preferred stock were as follows: $1.25 per share on the $5 dividend preferred; $1.01 per share on the $4.04 dividend preferred; $1.05 per share on the $4.20 dividend preferred; $1.03 per share on the $4.12 dividend preferred.

All dividends are payable September 20, 1956, to shareholders on record at the close of business August 31, 1956.

In addition to the large 1956 construction program on which more than $20 million has already been spent to meet the demands of its customers, the Vepco directors earlier this year approved the construction of two additional generating units of 150,000 kilowatt capacity costing $45 million. One of these was a second unit at the new Yorktown Power Station and the other at the Portsmouth Power Station. These units together with units now under construction at Bremo Station near Charlottesville and at Yorktown will increase the installed capacity of the Vepco system to 1,742,000 kilowatts by 1959.

RED-FACED OWNER

Dayton, Ohio — A housewife reported to local police that a cookie jar, containing about $900, was missing from her home. Police were unable to find any evidence in the case. Then, the woman sheepishly admitted getting out of bed one night to put the jar where no one could find it. No one did, until she, herself, cleaned behind a chair.

IN MOTOR TRANSPORT GMC LEADS THE WAY
This GMC has "muscles" unsurpassed in its class!
The facts speak for themselves.
This new GMC 250-8 has 180 V8 horsepower *standard*. No other truck in its class comes even close.
The extra power delivers 276 foot-pounds of truck-propelling torque. Over-the-road truckers call it "guts" — and this GMC's got up to 33% more than the others.
It's at the top of the heap in frame-strength, too. There's as much as 10% more "muscle" in its chassis than in comparable trucks.
And there's more. For this rugged GMC has 3500 lb. front axles and 7200 lb. rear — unsurpassed in its weight-bracket. It has extra-size brakes and springs.
Add it all up and you can see what GMC Blue Chip stamina really means. Especially when you team it with a GMC's dependable performance and Hydra-Matic* savings.
For here's a truck that not only delivers the goods at lowest cost — but *keeps* delivering long after an ordinary truck would have faded out. Come in and talk it over!
*Optional at extra cost
